

# RIGHT NOW

---

## VERSE

Right now we need to hear You speak  
Right now we need to feel Your peace  
We believe there's power in Your name  
And You will come every time we pray

## CHORUS

We want to know the God of impossible  
Let us see Your fire fall down  
We want to watch You move in miracles  
As You did then here right now  
Right now

## VERSE

Right now grace flows like a flood  
Right now there's healing in the blood  
We believe there's power in Your name  
What was dead can walk out of the grave

## BRIDGE

We know that You are our fighter  
Wooo-ooah  
You have the heart of a father  
Wooo-ooah  
And You're going to finish  
What You have started  
Here
